### Category Choices

# Instructions for Photo Registration

**All entrants must complete a Photofest Entry Form.**

Use the numbered color-coded labels provided at our registration table — use the color label that corresponds to the category you wish to enter

1. Place the numbered sticker on the edge of each photo — try to avoid placing the sticker over any part of the photograph (Small photos may be put into a plastic sleeve with the number on the outside of the sleeve). Be sure to press the stickers on firmly.

2. Place the **MATCHING NUMBER STICKER** on the entry form next to the description of that photo.

Tag just one picture at a time (photo and entry form) to avoid having a mistake between the form and the photo. The form is how we identify the winners — it's really important that the numbers match.

Place each tagged photo on the table designated for each category.

Entry Forms go in the box on the table. Please be careful when stacking to be sure the stickers don't become loose.

Please do not forget to vote!

Vote for the image of your choice in each category.

Your vote for "Best in Show" will honor the overall best image, regardless of category.

Thank you.
